Re: Mold remediation training and equipment
Date: October 12, 2023

I request that the School Committee approve the expenditure of up to \$35,000 to train volunteers for an in-house mold remediation team. In Mr. Underwood's attached memorandum, he has detailed the costs.

I feel this will provide a faster response time and provide the School Department and City with more options in the future. We will also need to negotiate with the UTL on what the rate of compensation will be for building services personnel who perform this function.
